The New Mexico Environment Department (NMED) proposes to make a determination of Complete Action Corrective (CAC) for six Solid Waste Management Units (SWMUs) at Cannon Air Force Base (CAFES), New Mexico. Under authority of the New Mexico Hazardous Waste Air (Section 74-4-1 et seq., New Mexico Statutes Annotated (NMSA) 1978, as amended, 1992) and the New Mexico Hazardous Waste Management Regulation (20.1.1 New Mexico Administrative Code) (NMAC), NMED intends to approve, pending public input into the decision, two Class 3 permit modification requests (MTRs) requested from the United States Air Force Cannon Air Force Base (Permittee) for the hazardous waste Corral Douglas W. Sabin (Permit) pursuant to 20.1.1.200 NMAC (incorporating 41 CFR § 274.42(b)).

If approved, the proposed modifications would grant CAC status for six SWMUs (SWMUs 306, 45A, 45, 111, 112, 400, 128) at the CAFES facility. Currently, Table 1 of Permit Attachment 1 of CAFES's Resource Observation and Recovery Act (ROA) (Permit) lists SWMUs and ACCs at the CAFES facility where corrective action is necessary to characterize and remediate past releases of hazardous waste constituents. If the modification is approved by NMED, SWMUs 306, 45A, 45, 111, 112, and 128 will be transferred from Table 1 of Permit Attachment 1 that lists SWMUs and ACCs with the status of Corrective Action Complete Without Controls. The CAC proposals are dated November 2015 and March 2016.

CAFES is owned by Curry County, New Mexico, approximately seven miles south of the City of
