MEMORANDUM FOR RCRA PERMITS PROGRAM

Dr Barbara Hoditschek Manager  
Hazardous and Radioactive Materials Bureau  
New Mexico Environment Dept (NMED)  
525 Camino De Los Marquez  
PO Box 26110  
Santa Fe NM 87502

FROM: 49 CES/CD  
550 Tabosa Ave  
Holloman AFB, NM 88330-8458

SUBJECT: Holloman AFB (HAFB) Sewage Lagoons: Closure Plan (ref yr 22 Mar 95 letter)

1. The proposed deadline of 15 May 1995 for submittal of the revised closure plan for the HAFB lagoons is acceptable to us. A schedule for additional submittals is provided for your planning purposes:

<u>Date</u>	<u>Document</u>	<u>Recipients</u>
14 Mar 95	Project Assessment Report	NMED, US Environmental Protection Agency (USEPA), US Fish and Wildlife Service (USFWS)
11 Apr 95	Groundwater Monitoring Plan	NMED (Mr Ron Kern), USEPA
15 May 95	Closure Plan	NMED, USEPA
6 Jun 95	Site Characterization Report	NMED, USEPA
20 Jun 95	Biological Assessment Report	USFWS
11 Jul 95	Risk Assessment Update	NMED, USEPA, USFWS
10 Oct 95	Corrective Measures Study	NMED, USEPA

2. Please note the closure plan to be submitted on 15 May is the latest revision of the original closure plan, submitted 19 Jan 1989 (within the required 30 days of signing the Federal Facilities Compliance Agreement on 20 Dec 1988); the plan has been revised several times since then. Our records indicate two copies of the most recent revision were submitted to Mr Boyd Hamilton of the RCRA Permits Program on 18 Jul 1990 (Atch 1). The document to be submitted by 15 May is a major revision intended to completely replace the previous plan. The revisions account for studies conducted in the intervening time, and the schedule is tied to the construction of the new wastewater treatment plant, for which the contract is expected to be awarded in April 1995.

3. Please direct any questions to Dr Fred Fisher of the Civil Engineer Environmental Flight, 49 CES/CEV, (505) 475-3931/5062.

  
HOWARD E. MOFFITT  
Deputy Base Civil Engineer
