MEMORANDUM FOR NEW MEXICO ENVIRONMENT DEPARTMENT

Hazardous and Radioactive Materials Bureau
Attn: Coby Muckelroy

P.O. Box 26110
Santa Fe, New Mexico 87502

FROM: 49 CES/CEV

Holloman AFB, New Mexico 88330-8458

SUBJECT: 30-day Extension for Holloman AFB's Waste Munitions

1. Headquarters Air Combat Command (HQ ACC) directed each ACC base to close their Thermal Treatment Units and use a regional unit to handle the treatment. HQ ACC reasoning was to eliminate any permitting fees and reduce the possibility of enforcement actions. Luke Air Force Base (AFB) is currently acting as the regional facility for Holloman AFB. Luke AFB currently services 14 bases.
2. Holloman AFB has had a shipment ready to be sent for treatment for the last month. However, due to numerous shipments from other bases, Luke cannot accept Holloman's munitions until the week of 12 June 95. Luke AFB has assured us that we will be included in their June burn. This delay causes 74 items to exceed the 90-day limit (see attached) and two items to exceed the 30-day extension granted last month.
3. Holloman AFB, therefore, requests another 30-day extension on the MF29 Impulse Cartridges, net explosive weight (NEW) of 0.0276 pounds, and MD47 Delay Cartridges, NEW of 0.0006 pounds. Holloman also requests a 30-day extension on the items on the attached listing. At this time, Holloman is actively seeking another base to dispose of these items.
4. Request approval of this in writing for our records. Please direct any questions to David Scruggs at (505) 475-3931.

HOWARD E. MOFFITT
Deputy Base Civil Engineer
