Dear Mr. Kieling,

The April 14, 2016 letter from NMED to Holloman AFB regarding the Remedial Investigation Report for four Military Munitions Response Program sites, XU854 Able 51 Area, SR864 Poorman Range, ML865 Ballistics Rain Field, and RR869a Debris Field requested a submission of the Non-Time Critical Removal Action (NTCRA) Report for sites ML865 and RR869a by July 30, 2016, and June 27, 2016, respectively. Since both sites follow the CERCLA path, which includes preparation and submission of Engineering Evaluation/Cost Analysis, Action Memorandum, and NTCRA Work Plan prior to preparation and submission of the NTCRA Report, we are requesting an extension of 12 months to submit the reports until July 30, 2017 (ML865) and June 27, 2017 (RR869a).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

If you have any questions regarding this submittal, please contact me at (575) 572-6675.

Sincerely,
