Subject: RE: Holloman AFB - RW042 Decommissioning Plan status

Jon:

NMED will not formally review the RW-42 (SWMU 111) Decommissioning Plan as it is not a RCRA-required document. Looking forward to the IM Report.

Let me know if you need anything else.

Subject: Holloman AFB - RW042 Decommissioning Plan status

Dave,

Thanks for speaking with me this morning. As we discussed, NMED approved the Final Interim Measures Work Plan for site RW042 (SWMU 111) at Holloman AFB last month with 2 minor modifications. The IM Work Plan was submitted for review in June 2016 along with the Final Decommissioning Plan for the same site. The Approval with Modifications letter did not mention the Decommissioning Plan (see attached).

Can you please confirm that the NMED HWB does not intend to conduct a formal review of the Decommissioning Plan, and that URS and the US Air Force may consider this document to be "Final" for our purposes?

The next document for this site that we believe NMED will review is anticipated to be an Interim Measures report which will contain site characterization and status information, and we also anticipate a corrective measures work plan to follow which will detail removal and/or disposal actions as necessary.

Thanks,
Jon
