**ENTERED**

15 May 2023

ADAM M. KUSMAK, GS-13, USAF  
Chief, Installation Management Flight (49 CES/CEI)  
49th Civil Engineer Squadron (49 CES)  
Holloman Air Force Base, NM

Mr. Ricardo Maestas  
Acting Chief, Hazardous Waste Bureau  
New Mexico Environment Department (NMED)  
2905 Rodeo Park Drive East Bldg. I  
Santa Fe NM 87505-6063

**SUBJECT: Request for Extension for Submitting Long-Term Groundwater Monitoring Plan for SS061 (AOC-1001)**

Dear Mr. Maestas,

Holloman Air Force base is in receipt of the May 10, 2023 approval letter for the Final Revised Supplemental Resource Conservation and Recovery Act (RCRA) Facility Investigation Report SS061: Building 1001 Fuel Spill Site (Area of Concern 1001), November 2022. In the approval letter, New Mexico Environment Department (NMED) has required a groundwater monitoring plan, no later than November 30, 2023. The contract in which the RCRA Facility Investigation Report was completed under has expired and the Air Force Civilian Engineer Center (AFCEC) is reviewing the proposal for the next 10-year contract for the restoration program at Holloman, that will be awarded in September 2023. A modification to this new contract will be required to generate the groundwater monitoring plan and execute the monitoring plan for the duration of the that contract.

Holloman Air Force base respectfully requests a 365-day extension (until 30 May 2024) for submitting the groundwater monitoring plan for SS061 (AOC-101).

If you have any questions or concerns regarding this submittal, please contact me at (575) 572-0059 or Ms. Sarah Nuss at (518) 322-8478.

Sincerely,

**KUSMAK.ADAM**
