

RECEIVED

JUNE 7, 1991

TO : MR BRUCE SWANTON
 ENVIRONMENTAL IMPROVEMENT DIVISION
 HAZARDOUS WASTE DIVISION
 RUNNELS BLDG
 SANTA FE, N.M. 87503

FROM : RON BRATTON
 6631 ASTAIR NW
 ALBUQUERQUE, NEW MEXICO 87120

Mr Swanton,

On Feb. 25, 1991 I informed the United States Air Force that I felt they were not properly transporting and storing hazardous materials in the public recreation areas of Elephant Butte State Park. On 20 March, 1991, I contacted your office by letter explaining my concerns relative to this activity. I have not received written response to date.

On May 20, 1991, I travelled to Santa Fe to provide your office with photographic evidence that "Pro-Shop", under contract to USAF, was improperly transporting and storing hazardous waste. Again, on May 30, 1991, I contacted you by phone, still concerned that USAF and their contractor were not to requirements of New Mexico State Laws governing this activity. To date I have received no written response from your office. You, personally, informed me (verbally) you were aware of some of these irregularities and had been in communication with an official from Kirtland AFB that it was your feeling that it was their desire to "...come into compliance...".

May I request that in your written response to me you please include the name, title, and office address of the official with whom you have been in communication with relative to this matter.

Thank you,
 Sincerely

Ron Bratton
