Dear Colonel Norris:

This letter is response to your March 13 and April 11, 1991 letter pertaining to a possible new Solid Waste Management Unit (SWMU) found at Kirtland Air Force Base.

After reviewing the submitted information, the Environmental Protection Agency has determined that the site adjacent to Building 1008 (paint stripping area for aircraft equipment) is a SWMU. However, the analytical results from soil samples taken from this site indicate that no further investigations are necessary and that this SWMU does not need to be included in the permit.

If you have any questions concerning this issue, please contact Rich Mayer of my staff at (214) 655-6775.

Sincerely yours,
