KIRTLAND AFB, NEW MEXICO 87117-5856

DRMO-WKC (Joseph Pecos (505) 846-0947)

01 June 1993

SUBJECT: Assignment of Unique Manifest Document Numbers from Kirtland
Air Force Base

TO: Mr. Ed Horst
New Mexico Environment Department
Hazardous and Radioactive Materials Bureau
1190 St. Francis Drive
Santa Fe, NM 87502

1. The Defense Reutilization and Marketing Office Kirtland has a contract with Security Environmental Systems based in Garden Grove, CA to dispose of hazardous waste that has been generated on Kirtland AFB. Security Environmental Systems acting as a broker has profiled waste from Kirtland AFB for disposal at Essex Waste Management Services in Kingsville, MO. The state of Missouri uses their own Hazardous Waste Manifests.
2. On 30 April 1993 and 3 May 1993 shipments of hazardous waste were manifested for Essex Waste Management Services. Eight Missouri manifests were used. The unique manifest document number 3G463 was used twice and the manifests were paged 1 of 2 and 2 of 2. The unique manifest document number 3G464 was used six times and manifests were paged 1 of 6 through 6 of 6. The error was attributed to the contractor's interpretation of assignment of Missouri Manifest Document Numbers. These eight manifests should have been assigned their own unique manifest document numbers.
3. The Missouri Department of Natural Resources Hazardous Waste Program explained that no matter how many manifests are used as long as the waste is on the same shipment the last four digits of the Missouri State Document Number will always remain the same. The contractor interpreted that the Unique Manifest Document Number would also remain the same, which of course is not correct.
4. This problem has been resolved and a unique manifest document number will be assigned for each Missouri Hazardous Waste Manifest that is generated from Kirtland AFB.
5. The State of Missouri Department of Natural Resources Hazardous Waste Program has been informed of this situation and their office does not foresee any regulatory problems.
