RE: Part B Permit, listed "D" Codes

Dear Ms Stoddard

This is a follow-up to our letter dated 2 June 1992 requesting the addition of the remaining characteristic "D" codes to our existing RCRA Part B permit (codes D018-D043).

After a review of our records, a conformation of this addition was never found. Please advise us if this request has been completed, and if not, what further action is required on our part.

If you have any questions, please call Marsha Carra at 846-0029.
