Ms. Jennifer Fowler-Propst
USDI Fish and Wildlife Service
Suite D, 3530 Pan American Highway, NE
Albuquerque, NM 87107

Dear Ms. Fowler-Propst:

The New Mexico Environment Department (**NMED**) approved the post-closure care plan for Kirtland Air Force Base's Sewage Lagoons and Golf Course Main Pond on July 6, 1994.

NMED received comments on the post-closure care plan from the US Department of Interior Fish and Wildlife Service and one private citizen. These comments and NMED's responses are enclosed. No changes were made in the plan in response to the comments. However, an administrative change was made in the schedule for post-closure activities to reflect the approval date of the plan. The modified page is included at the end of the comments.

Thank you for your time spent reviewing this post-closure care plan. If you have any questions concerning the enclosed comments or responses, please contact Steve Zappe of my staff at (505) 827-4308.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Hoditschek".

Barbara Hoditschek, RCRA Permits Program Manager
Hazardous and Radioactive Materials Bureau
