Ms. Nancy Morlock, Environmental Engineer
RCRA Permits Branch
U.S. EPA Region 6
1445 Ross Ave, Ste 1200
Dallas TX 75202-2733

Dear Ms. Morlock

We are in receipt of Mr. Neleigh's 19 September 1994 letter, in which he approved the formulation of Appendices V and VI. We need to clarify several areas:

- a. The Trestle Facility, referenced in the first paragraph of Mr. Neleigh's letter, was added to Appendix V via a Class I modification dated 23 August 1994.
- b. As you discussed with Mrs. Janet Riccobuano on 26 September 1994, you have the SWMU Assessment Report (SAR) for site WP-58, East Laundry (Building 20451).
- c. For ST-59 and ST-60, ART Drum (Building 768) and ART Pit (Building 765), respectively, we submitted a SAR to you on 10 May 1994; in a 21 June 1994 letter, you approved these as SWMUs. We erroneously identified these as potential, rather than actual, SWMUs in our 31 August 1994 letter. We have added them to Appendix V.

This package contains the SAR for Landfill D, LF-56.

Sincerely

CHRISTOPHER B. DeWITT, R.P.G.
Acting Director
Environmental Management Division

cc:
NMED-HRMB (Mr. Pullen)
