Dear Ms. Morlock

Brown & Root Environmental, formerly Halliburton NUS, has initiated field activities for the Stage 2C Waste Line RFI on Kirtland AFB. They will begin mobilization and decontamination of drilling and sampling equipment on 5 December 1994; we anticipate they will commence sampling activities on 8 December 1995. Seven waste line sites--STs-220, -206, -207, -208, -211, -212, and WP-47--are in buildings where floor resealing is scheduled; therefore, they will be sampled first.

Please contact me at (505) 846-2773/0053 if you have any questions.

Sincerely

CHRISTOPHER B. DeWITT, R.P.G.  
Chief, Restoration Branch  
Environmental Management Division
