Ms. Kathleen A. Carlson, Area Manager  
Department of Energy  
Kirtland Area Office  
P. O. Box 5400  
Albuquerque, NM 87115

Dear Ms. Carlson,

**RE: Extension of Deadline for Response to Notice of Deficiency  
(NOD) Dated November 18, 1994.  
EPA ID No. NM5890110518**

The Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department (NMED) has reviewed your letter dated December 2, 1994, requesting an extension to the deadline imposed by the November 18, 1994 NOD regarding your RCRA Part B permit application for mixed waste at Sandia National Laboratories (SNL), New Mexico. My staff also met with representatives of DOE/KAO and SNL on December 12 to discuss several permitting issues, including rationale for requesting an extension to the deadline.

Upon consideration of your request, HRMB extends the deadline for responding to the requirements of the NOD until January 31, 1995. We understand by that date you will submit a revised Part B application and address all issues raised in the NOD. Failure to submit this information by that date may result in the issuance of a compliance order with associated fines.
