Dear Mr. Zamorski:

The Environmental Protection Agency (EPA) has reviewed your June 13, 1995 Class 1 permit modification to change the names of 19 solid waste management units.

The EPA cannot concur on the permit modification at this time. Most of the name changes are said to be "better descriptive name[s] for RFI Work Plan[s]." However, some of the name changes appear to be less descriptive. For example, the name for site 30 is currently "PCB Spill (Reclamation Yard)", while the proposed new name is "Reclamation Yard". Please provide further justification for the proposed name changes for sites 19, 30, 33, 41, and 42.

Upon review and approval of this additional information, EPA will make the requested changes to Table 2 of the Sandia National Laboratories/New Mexico Resource Conservation and Recovery Act/Hazardous and Solid Waste Amendments Permit.

Please contact Nancy Morlock of my staff at (214) 665-6650 if you have any questions or need additional information.

Sincerely yours,

William K. Honker, P.E., Chief
RCRA Permits Branch
