RE: Closure Plan of Building 28009  
EPA ID No. NM9570024423

Dear Colonel Fraser:

The Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department (NMED) has reviewed for administrative completeness and technical adequacy, the Kirtland Air Force Base (KAFB) May 30, 1997 Closure Plan for Building 28009 as required under the New Mexico Hazardous Waste Management Regulations.

After reviewing the Closure Schedule and Hazardous Waste Inventory, NMED has found it to be administratively complete and technically adequate. NMED therefore advises KAFB to proceed with the closure activities for Building 28009 as per the Approved Closure Plan that was part of the Hazardous Waste Permit (EPA ID Number 9570024423) which NMED issued to KAFB on July 24, 1990.

If you have any questions regarding this matter you may contact Cornelius Amindyas at (505) 827-1561. Thank you for participating in our permitting process.

Sincerely,

Ed Kelley, Ph.D., Director  
Water and Waste Management Division
