SUBJECT: Review Of Documents on Backlog at NMED

1. I have listed below those documents previously submitted to NMED which require review. They are listed in chronological order, which is also the order of priority for review. The documents highlighted in bold print are plans that no longer need to be reviewed, as the work described has already been completed. Italicized documents are non-RCRA. For planning purposes, I have also included a list of documents we anticipate submitting prior to the end of your fiscal year on June 30, 1998.

2. As you know, we are currently involved in the task force discussing the NMED's proposed fee schedule. The issue of if and how fees will be applied toward review of these backlogs has not been settled, and there is a very wide range of opinions. The task force has recommended that, as a minimum, an alternative to applying the most recent version of the fee schedule (>\$270,000) to the backlog be agreed upon by NMED and the regulated community. As a consequence, we are submitting this priority list only for NMED to use to determine in what order to review these documents. As of this date, the

Air Force does not concur with the use of the current fee schedule as a source of funding the review of these documents.
