BUREAU

Mr. John M. Stomp III, P.E.
Albuquerque Bernalillo County Water Utility Authority
Manager, Water Resource, Engineering and Planning
P.O. Box 1293
Albuquerque NM 87103

Dear Mr Stomp

I received your letter dated 13 October 2009, stating your concerns regarding the Kirtland AFB Bulk Fuels Facility Spill Investigation and Remediation Activities and our progress in investigating, identifying and remediating activities for the bulk fuels site. I would like to re-assure the Albuquerque Bernalillo County Water Utility Authority that we will continue to communicate and coordinate all of our investigation and remediation activities with you, the New Mexico Environmental Department and the City of Albuquerque. We, too, are concerned with the ground water quality and are committed to continue working until we are all assured that the ground water is safe and sustainable.

Please contact Mr. Brent Wilson to arrange the meeting to discuss your concerns. Mr. Wilson can be contacted at (505) 846-7911 or brent.wilson@kirtland.af.mil.

Sincerely

MICHAEL S. DUVALL, Colonel, USAF
Commander
