Dear Mr. Kieling

Kirtland Air Force Base (KAFB) requests a three (3) week extension for submitting its Quarterly Pre-Remedy Monitoring and Site Investigation Report for October – December 2012, Bulk Fuels Facility Spill Solid Waste Management Units ST-106 and SS-111. The extension request is required to allow for time to deliver the quarterly report requirements dictated by the New Mexico Environment Department (NMED). The subcontracted soil vapor laboratory delivered data three weeks late, resulting in a delayed ability to validate and quality control check the data, as well as generate the required figures and tables for the quarterly report. In order to submit accurate report data, an extension is respectfully requested. If approved by the NMED, the new submission date will change from 29 March to 19 April 2013.

Your consideration of this matter will be greatly appreciated. Please contact Ms. Victoria R. Martinez at (505) 846-6362 or at victoria.martinez@kirtland.af.mil with any questions you may have in regard to this submittal.

Sincerely

JOHN C. KUBINEC, Colonel, USAF
Commander
