**RE: GEOPHYSICAL LOGS FOR WELLS INSTALLED FOR THE BULK FUELS  
FACILITY SPILL  
SOLID WASTE MANAGEMENT UNITS ST-106 AND SS-111  
KIRTLAND AIR FORCE BASE  
EPA ID# NM9570024423  
HWB-KAFB-11-012**

Dear Colonel Kubinec and Mr. Pike:

NMED's June 4, 2010 letter to the U. S. Air Force (Permittee) required the Permittee to submit all geophysical logs in the quarterly report submitted for the time period in which the logs were generated. The New Mexico Environment Department (NMED) has not received geophysical logs from any borings/wells logged after the third logging mobilization campaign at the Bulk Fuels Facility, which took place during the second quarter 2011.. The Permittee must submit all geophysical logs conducted after the third mobilization, which are listed below and which include, but are not necessarily limited to, those for groundwater monitoring wells, soil-vapor monitoring wells, PneuLog borings, and extraction/injection wells.

NMED has previously requested these logs by letter, unofficial telephone conversations, and most recently, by email sent December 20, 2012. In some cases, the NMED has been informed that logs have been submitted to the NMED, but NMED was not provided information indicating where and in what document(s) the logs can be found.

Geophysical logs that have not been provided to the NMED to NMED's knowledge are listed below.

The Permittee must submit to the NMED by **April 1, 2013**, each of the logs listed above or provide the title, date, and page number in any document previously submitted to the NMED where each geophysical log may be found. Submit the logs in the same format used in Appendix E of the June 28, 2012, KAFB Quarterly Pre-Remedy Monitoring and Site Investigation Report. Any log previously submitted that is not in this format shall be provided to the NMED in this format.
