**Subject:** Relocation of data gap Well KAFB-106230

Diane,

NMED understands there are pros and cons to each of the locations (KAFB-106230B and KAFB-106230) proposed for this monitoring well. Either location is acceptable to NMED.

Please ensure that the new location and justification for that location are presented in the next quarterly monitoring report.

Please also note that this email will be placed in the Administrative Record for KAFB at the Hazardous Waste Bureau.

Thanks,  
Katie
