Dear Mr. Torcoletti

Pursuant to the provisions of the Defense Environmental Restoration Program (10 USC Chapter 160, *Environmental Restoration*) (DERP), Kirtland Air Force Base (KAFB) has conducted preliminary assessments and site inspections of the Military Munitions Response Program (MMRP) sites within the boundary of the installation.

KAFB's restoration personnel have recently completed the Feasibility Study (FS) for MMRP site PT123 Tijeras Small Arms Range Munitions Response Site (MRS). As required by 10 USC §2710(c)(2), E.O. 12580, E.O. 13016 and Office of Solid Waste and Emergency Response Directive 9200.3-60, I am submitting the FS for MMRP site PT123 for your review, comment, and records retention. As we continue to implement the provisions of DERP and the Superfund Amendments and Reauthorization Act to complete the identification, investigation and cleanup of contamination within KAFB, we look forward to your input on accomplishing these goals.

If you have any questions or concerns, please contact Mr. Jesse Kahler at (505) 846-7674 or at jesse.kahler@us.af.mil or Mr. Scott Clark at (505) 846-9017 or at scott.clark@us.af.mil.

Sincerely

ERIC H. FROEHLICH, Colonel, USAF
Commander
