RE: Extension for Mixed Waste 90 Day Accumulation Point

Dear Mr. Muckelroy

Environmental Management Compliance is providing additional information as requested by your per telecom 22 Feb 96 with Marsha Carra on referenced subject.. The expiration dates on 2 drums of mixed waste are 30 Jan 96 and 15 Feb 96. Our expected date of shipment pickup will be at the completion of the contract.

The contractual problems were given to us by the Corp of Engineers and Capt Wild at Kelly Air Force Base as listed:

A change in contracting personnel at the Kansas City Corp of Engineers Personnel felt that treatment was not part of the statement of work with Envirocare.

Kansas City ceased efforts to modify the contract to include waste treatment.

Contracting officer felt there was no longer justification for Envirocare as sole source and plan to go elsewhere.

Due to the increase in volume, new manifest/shipping regulations and new characterization requirements which increase dollars.

Now Tulsa contracting is going to a contractor who will subcontract to Envirocare for treatment. Kansas City will pay for disposal. We are expecting this contract to be in place by the end of this week.

KAFB4725

If you have any questions, please contact Marsha Carra at (505) 846-7847 or myself at (505) 846-5037. We appreciate your help and cooperation.

Respectfully

Walter S. Darr III
