Dear Mr. Nance

This letter is in response to the New Mexico Environment Department (NMED) Hazardous Waste Bureau's (HWB's) letter dated August 21, 2025, *Approval Extension Request Ecological Risk Assessment Report, Bulk Fuels Facility Spill, Solid Waste Management Units (SWMUs) ST-106/SS-111, Kirtland Air Force Base, New Mexico, EPA ID# NM9570024423, HWB-KAFB-25-MISC-BFFS*. This letter requires the Air Force to submit an updated Ecological Risk Assessment Report with an updated soil vapor conceptual model and risk calculations by May 30, 2025.

The Air Force respectfully requests a 6-month extension from the approval date of the *Phase II Resource Conservation and Recovery Act Facility Investigation Report for SWMUs ST-106/SS-111, Kirtland Air Force Base, New Mexico* (Phase II RFI Report), for the submission of the required risk assessment updates. The Phase II RFI Report, submitted on March 28, 2025, is currently with NMED for review and this report describes the updated soil vapor conceptual model required within NMED's August 21, 2025, letter. This extension will allow the Air Force to perform the required updated risk calculations while utilizing an updated soil vapor conceptual model that has received regulatory concurrence.

If you have any questions or concerns, please contact Mr. Ryan Wortman at commercial line (505) 853-3484 or email ryan.wortman.3@us.af.mil.
