**RE: APPROVAL
EXTENSION REQUEST – ECOLOGICAL RISK ASSESSMENT REPORT, BULK FUELS FACILITY
SPILL, SOLID WASTE MANAGEMENT UNITS (SWMUs) ST-106/SS-111
KIRTLAND AIR FORCE BASE, NEW MEXICO
EPA ID# NM9570024423
HWB-KAFB-25-MISC**

Dear Colonel Secrest and Ms. Clark:

The New Mexico Environmental Department (NMED) received the *Ecological Risk Assessment Report, Bulk Fuels Facility Spill, Solid Waste Management Units (SWMUs) ST-106/SS-111 Extension Request* (Request), on May 29, 2026. This extension request states that the Permittee wishes to obtain a 6-month extension on the submittal due date for the report that begins on the approval date of the *Phase II Resource and Recovery Act Facility Investigation Report for SWMUs ST-106/SS-111, Kirtland Air Force Base, New Mexico* (Phase II RFI Report for the Bulk Fuels Facility Spill, KAFB-25-004). The extension is needed for this report after the Phase II RFI report for the Bulk Fuels Facility Spill is approved by NMED to allow for the Permittee to potentially use an updated soil vapor conceptual model while performing the risk calculations required for the Risk Assessment Report.

NMED Hereby approves the Permittee's request for a 6-month time extension to submit the *Ecological Risk Assessment Report, Bulk Fuels Facility Spill, Solid Waste Management Units ST-106/SS-111*, from the date upon which the *Phase II Resource and Recovery Act Facility Investigation Report for SWMUs ST-106/SS-111, Kirtland Air Force Base, New Mexico* is approved by NMED. The Phase II RFI Report for the Bulk Fuels Facility is currently under NMED review, and this extension approval for the Ecological Risk Assessment does not constitute that NMED will approve the Phase II RFI Report for the Bulk Fuels Facility during this review cycle.

Additionally, it should be noted that this extension request was received by NMED on May 29, 2026, with the letter dated May 27, 2026. The *Ecological Risk Assessment Report, Bulk Fuels Facility Spill, Solid Waste Management Units ST-106/SS-111* was originally extended by NMED

to a due date of May 30, 2026. The Request was received one day prior to the due date of the Report. As stated previously in several extension request approval letters, all future extension requests must be provided a minimum of 10-days prior to the required submittal date. Failure to provide extension requests in a timely manner may result in denial of the requests.

If you have any questions regarding this letter, please contact Sam Bollinger at (505) 490-5808.

Sincerely,

JohnDavid Nance
