Subject: Public Notice of a Class 1 Hazardous Waste Permit Modification

NASA recently submitted a Class 1 permit modification without prior approval to the New Mexico Environment Department Hazardous Waste Bureau to modify the Johnson Space Center White Sands Test Facility (WSTF) Hazardous Waste Permit (NM8800019434). Resource Conservation and Recovery Act emergency coordinator names and contact information were updated in Attachment Q, Table 1 of the WSTF Contingency Plan, which is also Attachment 3 of the Permit. Public notification of this modification is required to all persons on the WSTF facility mailing list in accordance with New Mexico Administrative Code (NMAC), Title 20, Chapter 4, Part 1 [incorporating Code of Federal Regulations (CFR) 40 CFR §270.42 (a)(1)(ii)]. Enclosure 1 provides a copy of the updated Contingency Plan for applicable agencies, institutions, and emergency incident first responders, as required by Permit Section II.K.3 (incorporating 40 CFR 264.53).

The referenced permit modification was prepared in accordance with NMAC Title 20, Chapter 4, Part 1 (20.4.1.900 NMAC) incorporating 40 CFR §270.42(a)(1). If you have any questions or comments concerning this submittal, please contact me at 575-524-5024.

Sincerely,

A handwritten signature in black ink, appearing to read "T. J. Davis".

Timothy J. Davis
