

**PUBLIC SERVICE COMPANY OF NEW MEXICO**

ALVARADO SQUARE ALBUQUERQUE, NEW MEXICO 87158

February 20, 1990

HAND DELIVERED

Dr. Bruce Swanton  
New Mexico Environmental  
Improvement Division  
Hazardous Waste Bureau  
1190 St. Francis Drive  
Santa Fe, NM 87503

Dear Dr. Swanton:

Subject: Response Information to  
Administrative Order  
NMT360010342, Person  
Generating Station

Enclosed please find one (1) copy of our initial submittal which responds to Item 1 through Item 4 of the proposed schedule of compliance of the above referenced Administrative Order. This document was prepared for PNM by our consultant, METRIC, Corporation.

The document is divided into four (4) sections labeled Item 1 through Item 4 which correspond to Items 1 through 4 of Attachment A, "Technical Schedule - Public Service Company of New Mexico", from the Administrative Order.

Item 1 (Sampling and Analysis Plan) and Item 2 (Technical Schedule) have been modified slightly from the templates suggested by the NMEID. At the front of each of these items is a brief explanation of our suggested changes. Additionally, the strikeout and underline feature of Word-Perfect 5.0 were used to designate deleted wording and new wording, respectively, in each item. A computer diskette containing files of each document is also supplied.

Item 3 is the survey of all domestic and public water wells within a one-mile radius of Person Generating Station.

Item 4 contains documentation supporting the appropriateness of the mathematical model used to calculate the hydraulic conductivity at the Person Generating Station Site.

(NMEID-Swanton)
