Re: Document Request, PNM Person Station

Dear Ms. Pruett:

We have received your request to review the following documents:

1. Groundwater/Core logs for wells drilled to date; due to NMED 1/4/93.
2. Groundwater flow cross sections; due to NMED 1/4/93.
3. List of wells within one mile radius of Person Station; due to NMED 11/30/92.
4. PNM's contaminant migration evaluation.

As Ms. Jane Cramer stated in a telephone conversation with you on January 19, Ms. Anna Walker answers written requests within 14 working days.

Also, as Ms. Cramer discussed with you, it is not possible for you to visit us and review documents until these documents have been located and files which contain them purged for material that may not be covered under the Freedom of Information Act. The 14 days are to allow staff time to perform this task as well as to keep up with their already scheduled activities.

To photocopy documents at Alphagraphics, we must schedule NMED staff to accompany any documents taken out of our office.

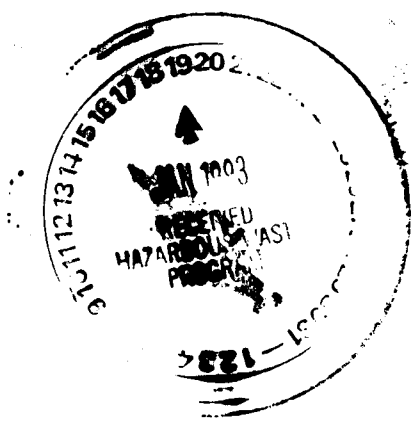

Sincerely,

A handwritten signature in cursive script, appearing to read "Ed Horst".

Re: Document Request, PNM Person Station

Dear Ms. Cramer:

As we discussed by telephone this morning, I work for the Law Firm of Eaves, Bardacke and Baugh, and on their behalf am requesting copies of the following four documents:

1. Groundwater/Core logs for wells drilled to date.
2. Groundwater flow cross sections.
3. Containment migration evaluation.
4. List of wells within one mile radius of Person Station.

Our understanding is that NMED requested these documents from PNM by letter dated October 15, 1992, and that they are all currently in your possession. As some of them are oversized and therefore would be difficult to duplicate in your office, we would be happy to pay for their copying at Alphagraphics in College Plaza. As our request is limited and specific, we hope you can accommodate it today or tomorrow. Please contact me at 471-1019 as soon as possible as to how you will proceed with our request.

Thank you for your assistance.

Sincerely,

Jennifer J. Pruett
