MEMORANDUM

TO: File, PNM/Red/93

FROM: Jane Cramer, Technical Compliance Program

THROUGH: Steve Alexander, Technical Compliance Program Manager

DATE: December 28, 1993

RE: **Hazardous and Radioactive Materials Bureau (HRMB) and San Jose Community Awareness Council (SJCAC) Corrective Action Directive (CAD) Corrective Measures Proposal submitted by Public Service Company of New Mexico (PNM).**

Attendees:

Jane Cramer, HRMB, Technical Compliance Program
 Dolores Herrera, San Jose Community Awareness Council (SJCAC)
 Executive Director,
 2401 Broadway SE, Albuquerque, New Mexico 87102-5009
 PO 12297, Albuquerque, New Mexico 87195-2297
 243-4837 FAX 243-3085

On December 23, 1993, HRMB staff met with SJCAC representative at the SJCAC office in Albuquerque. The meeting was held to update SJCAC on groundwater contamination investigation and remediation status at PNM, particularly the PNM submittal, Corrective Measures Proposal.

The topics of discussion included the following:

- proposed remediation of the shallow plume groundwater investigations including soil vapor extraction and pump and treat
- possible issues of concern for the San Jose Community
- other community groups who might have concerns
- permitting program public notice process
- tentative schedule and location for informal public meeting on permit modifications
- results and current status of the deep plume groundwater contamination investigations

Ms. Herrera will obtain permission to use the San Jose Community Center for the proposed informal public meeting on February 24, 1994 pending accessibility to be determined after the first of the year. She will call Marc Sides, permitting program, to confirm. SJCAC will also publicize the meeting in their newsletter and organization.

cc: Benito Garcia, Bureau Chief
 Barbara Hoditschek, Permitting
