**RE: REQUEST FOR SUPPLEMENTAL INFORMATION: TREATMENT  
EFFECTIVENESS REPORT, SECOND QUARTER 2001, AUGUST 15, 2001  
PERSON GENERATING STATION, EPA ID # NMT360010342  
HWB-PNM-01-099**

Dear Mr. Hale:

The Permits Management Program of the New Mexico Environment Department's Hazardous Waste Bureau has reviewed the subject document. Enclosed is a Request for Supplemental Information (RSI). Please incorporate the following information into next quarter's Treatment Effectiveness Report.

- 1) Page 3 – Please clarify why there are two EW-2's denoted on the map.
- 2) Section III, Page 5 – Please explain why EW-2 was not in service in June 2001 and why EW-3 was out of service from August 2000 until June 2001 (see Table 6, Page 14).

Mr. John Hale, PE, PNM Person Generating Station  
November 02, 2001  
Page 2

- 3) Section III, Page 5 – Since PSMW-16 and PSMW-24 have been out of service the past couple of quarters, HWB suggests replacing these wells with similar wells for reporting purposes (see Figures 2 and 5) until EW-4 and EW-5 have been placed on line.
- 4) Please clarify why PSMW-25 and PSMW-26 were only in service during April 2001 instead of the entire quarter.

If you have any questions please contact me at (505) 841-9033.

Sincerely,

Robert Warder  
Project Leader  
Permits Management Program
