RE: REQUEST FOR SUPPLEMENTAL INFORMATION: TREATMENT EFFECTIVENESS REPORT, FOURTH QUARTER 2001, FEBRUARY 15, 2002, AND CALENDAR YEAR (CY) 2002 COST ESTIMATE. PERSON GENERATING STATION, EPA ID # NMT360010342 HWB-PNM-01-099

Dear Mr. Hale:

The Permits Management Program of the New Mexico Environment Department's Hazardous Waste Bureau has reviewed the above referenced documents. Enclosed is a Request for Supplemental Information (RSI). Please incorporate the following information into the next quarter's Treatment Effectiveness Report and CY 2003's Post-Closure Care Cost Estimate.

- 1) Post-Closure Cost Estimate, Detail 4, Page 5 – Please explain the increase in line item 11 from CY 2001 to CY 2002 (\$2,200.00 to \$12,000.00).
- 2) Treatment Effectiveness Report, Page 1 – The executive summary should be updated to reflect the installation of EW-4 and EW-5 and the plugging of PSMW-16 and PSMW-24.
- 3) Treatment Effectiveness Report, Site Map – There is an unlabeled (PSMW-16?) monitor well located to the right of EW-4. Please label this well or remove the symbol from the map.

Mr. John Hale, PE, PNM Person Generating Station
April 03, 2002
Page 2

- 4) Treatment Effectiveness Report, Page 6, 5th Paragraph – Please provide the reason why EW-4 was not sampled in October 2001. Figure 2 and Table 1 should be updated to include PSMW-16 data as well as EW-4 sample data.
- 5) Treatment Effectiveness Report, Page 13, Table 4 – This table reflects combined influent concentrations at PSMW-24, PSMW-25, and PSMW-26. Since PSMW-24 was plugged and replaced with EW-5, this table should be noted as such and should include EW-5 sample data.

If you have any questions please contact me at (505) 841-9040.

Sincerely,

Sent via e-mail 4/2/02.

Robert Warder
Project Leader
Permits Management Program
