RE: Signature Authority for Safety-Kleen Corp. Albuquerque and Farmington
Permitted TSD Facilities

Dear Mr. Dinwiddie:

Safety-Kleen Corp. is delegating signature authority for permit modifications and reports to regional and local personnel. The signing and certification of reports under RCRA, CWA, and CAA will be delegated to the facility manager position. The signing and certification of permit applications and modifications will be delegated to Division Sales Vice Presidents and Regional Sales Manager positions.

The above Safety-Kleen positions meet the definition of "Responsible Corporate Official". I have enclosed two signature delegations for the above personnel. Safety-Kleen Corp. would like to add these letters to all applicable permit files for our Farmington and Albuquerque facilities.

I'm sure you can understand the difficulties associated with a company this size having only a few corporate officers with signature authority. Not only is it a time consuming task, but meeting report deadlines is often difficult due to the fact that our corporate offices are located in Elgin, IL. If you have any questions please contact me at (505)884-0260. Thank you for your attention to this issue.

Sincerely,

A handwritten signature in black ink, appearing to read "Darla Jo Huff", written over a horizontal line.

Darla Jo Huff
Senior Environmental Engineer
