RE: Environmental Compliance Contact for Safety-Kleen Corp. Facilities in New Mexico  
(Albuquerque, NMD 000804294; Farmington, NMD 980698849)

Effective immediately, Darla Jo Huff is no longer the environmental engineer for the New Mexico Safety-Kleen facilities. Brian Jacobson will be providing environmental engineering support for these facilities until a permanent replacement is hired. He may be contacted at:

Brian Jacobson  
Senior Environmental Engineer  
Safety-Kleen Corp.  
3333 Quebec, Penthouse A  
Denver, CO 80207  
(303) 783-0531  
Fax (303) 377-8461

Our records show a permit modification requested by Darla Jo Huff is due to be submitted in the near future. Since you are in the process of moving and do not have a direct phone extension, please contact Brian or myself as soon as possible to discuss this issue as well as other transitional issues. Brian will be in New Mexico August 7 and August 8 as well and would like to schedule a meeting with you if this would be convenient.

Sincerely,

Diana Leutner  
West Region Environmental Manager  
(303) 377-8424
