Dear Ms. Toossi and Mr. Dolk:

The New Mexico Environment Department (NMED, the Department) has reviewed the June 8, 2017, "Request for Class 1 Modification to the Hazardous Waste Operating Permit NMD000804294", submitted by Safety-Kleen Systems, Inc., Albuquerque Center (the Permittee, the Facility). In the submittal the Permittee is requesting for changes to be made to Permit Attachment 7 (Contingency Plan), to update the emergency contact list with current information.

In the request, the Permittee specifically proposed replacing Mr. Angel Chavez, formerly the Alternate Emergency Coordinator, with Ms. Elizabeth Thomas, who is currently the Lead Material Handler.

Since the Permit Modification is a self-implementing change that does not require approval from NMED, and the Permittee has already sent out a notice of the modification request to all persons on the facility mailing list previously received from the Department, the Permittee must incorporate the attached emergency response contact list into the current operating permit, upon receipt of this letter.
