RE: Extension of Class 1 Submittal Date Request for New Mexico Safety-Kleen Corp. Facilities
(Albuquerque, NMD 000804294; Farmington, NMD 980698849)

Safety-Kleen Corp. respectfully requests an extension to the deadline to submit class 1 modifications for the Albuquerque and Farmington, NM permits as provided in Ms. Barbara Hoditschek's June 22, 1995 letter to Darla Jo Huff, formerly of Safety-Kleen Corp. As you know, Safety-Kleen Corp. has had a change in the environmental personnel providing coverage for these facilities and will require extra time to coordinate the preparation of these modifications. I would like to establish an agreeable deadline date when we meet next week.

If you have any questions, feel free to contact me at (303) 783-0531.

Sincerely,

A handwritten signature in black ink, appearing to read 'BTJ'.

Brian T. Jacobson
Senior Environmental Engineer
