| ORIGINATING PARTY      | OTHER PARTIES |
| John Andrews<br>Sandia | Sides<br>EID  |

~~CONFIDENTIAL~~

SUBJECT February 13, 1991 RFI Workplan transmittal letter stating there was a "positive finding for RCRA regulated waste at the MWL."

DISCUSSION Andrews said the the statement in the attached letter means that RCRA Proactors constituents have been identified in the MWL. This could be part of the hazardous component of mixed waste disposed there or could be non wastes disposed there pre-1970's. Sandia has no record of RCRA regulated waste being disposed in the MWL.

CONCLUSIONS OR AGREEMENTS Sandia will be happy to provide further info. that shows the MWL is not RCRA regulated. Conclusion is that the attached letter does not accurately define "RCRA regulated waste" as it applies to the MWL.
