RE: Department of Energy (DOE)/Sandia National Labs (SNL) Response to Request for Supplemental Information (RSI) - RCRA Facility Investigation (RFI) Work Plan for Southwest Test Area (OU 1335)

Dear Mr. Zamorski and Mr. Robinson:

We have received Mr. Zamorski's letter dated December 9, 1997 enclosing two copies of the DOE/SNL response to the RCRA Permits Management Program (RPMP) RSI - RFI Work Plan for Southwest Test Area (OU 1335). According to Table 1 on page 1 of Attachment A of the RSI, the following Environmental Restoration Sites are proposed for No Further Action (NFA): 6, 6A, 14, 17, 38, 39, 53, 54, 55, 56, 85, 86, 89, 90, 91, 103, 108, 109, 112, 115, 117, 191, 193, and 194. All of the DOE/SNL responses to RPMP's specific comments reference current or future NFA proposals. Therefore, RPMP will discontinue review of the OU 1335 RFI Work Plan and the DOE/SNL response to the RSI. Instead, RPMP will review the NFA proposals to determine the status of each site.
