John E. Kieling  
 NMED - Hazardous Waste Bureau  
 2905 Rodeo Park Dr. E, Bldg 1  
 Santa Fe, NM  
 87508-6303

The mixed waste landfill  
 soil-vapor sampling and  
 analysis Plan for Sandia Natl  
 Labs seems to have a tortuous  
 and somewhat political history  
 with a whiff of stalling tactics?

I know NM has strict  
 Hazardous Waste Regs and I  
 assume NMED has strict  
 rules about low-level radio-  
 active waste disposal.

I just want to say,  
 please hold all radioactive  
 labs' feet to the fire of  
 timely, thorough and all-  
 specs waste management.

NM should not be a  
 victim of Federal laissez-  
 faire or careless attitudes  
 about the environment.
