Dear Ms. Boultinghouse:

The New Mexico Environment Department (NMED) has reviewed the *2016 Groundwater Remediation Activities for the Former Surface Impoundments Annual Report, Roswell Compressor Station No.9* (Report), dated March 17, 2017 submitted by Transwestern Pipeline Company, LLC (Respondent) and hereby issues this Approval with the following comment.

Comment 1

Refer to Section IV.A of Stipulated Final Order when proposing changes to the existing Operations and Maintenance (O&M) and Monitoring Plan. Comment 2

The Respondent proposes continuation of the system optimization effort. NMED concurs with the proposal. In future submittals, provide the supporting data regarding the study and the modifications made to the system, if any.

Comment 3

Table 4-5 (Summary of Groundwater Analytical Results for Samples Below PSH) discussed in Section 4.0, page 7, is missing from the Report. Provide **Table 4-5** for inclusion in the Report.

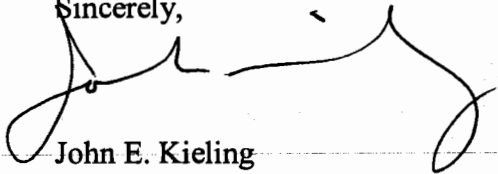

Comment 4

Section 6.0, page 10, contains a typographical error. The Respondent states "BTEX was in monitoring wells MW-29, MW-32, MW-35 and MW-37..." **Table 4-4** indicates otherwise. Correct the error in future reports.

Provide **Table 4-5** as referenced in Comment 3. **Table 4-5** must be submitted to NMED no later than June 30, 2017.
