Dear Mr. Kieling;

Transwestern Pipeline, LLC (Transwestern) submits this extension request regarding a second *Response to Comments* (dated August 17, 2018) regarding the initial *Response to Approval with Modification Comments regarding the 2017 Annual Report* for the above referenced Site received from the New Mexico Environment Department (NMED) to January 4, 2019. Transwestern is requesting this extension as we are awaiting the results of the latest round of groundwater sampling to further confirm our conceptual site model prior to the response.

Transwestern would also request a meeting in mid-January 2019 with you and staff from NMED and OCD and requests no additional letters be drafted until after we have a chance meet to discuss the project. Therefore, with the holidays and meeting request, an extension until the beginning of 2019 would be appreciated.

If you have any further questions, please do not hesitate to contact me at 210.870.2725 or JD Haines of EarthCon at 317.450.6126.

Sincerely,

Stacy Boultinghouse
