RE: Rough Draft from A.T.Kearney on Gandy Marley

Here is a copy of the Rough Draft comments on the Gandy Marley Permit Application for Triassic Park. The letters and numbers on the left hand side of the document refer to the item on the EPA checklist for Part A & B Permit Applications. In their final comments I have asked A.T.Kearney to also refer to the page number on the Gandy Marley application.

Greg Starkebaum informed me that he will be faxing me more information later this afternoon. When it arrives I will make you and Susan a copy.

I will also see to it that Ken Schultz gets copies.
