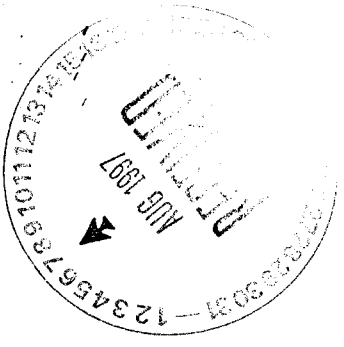
GANDY MARLEY INC
"A New Mexico Enterprise, Meeting New Mexico Needs"

August 1, 1997



Mr. Benito Garcia
Bureau Chief
Hazardous & Radioactive Materials
P.O. Box 26110
Santa Fe, N.M. 87502

Dear Mr. Garcia:

Thank you for meeting with Trey Greenwood, Ken Schultz, and myself on Wednesday July 30, 1997, to clarify some items that we at GMI had with regard to our Triassic Park Project, permit process.

It is GMI's understanding the following items were agreed to by you, Stu Dinwiddie and Jerry Bober:

1) Approach to be used to update the Administrative record
2) Engineering design criteria with a staged review
3) Comment response format
4) A clean revision, rather than a red-line/strikeout version of the permit application
5) The electronic version we submit will be in Microsoft Word, which you will convert to WordPerfect

If you have any questions, or need further correspondence, regarding the above five items of agreement, please give me, or Ken Schultz a call.

Sincerely,

Dale Gandy
