We are transmitting 4 pages including this cover sheet;

If you do not receive all the pages, or if you have any questions or problems concerning this transmission, PLEASE contact us at the telephone number above. **THANK YOU!**

COMMENTS:

Steve:

Per James B.'s request, please find enclosed the following:

- 1) Issue's raised that Pat Corser and I had written down from the May 4, 2001 Public Information Meeting.

If you have time, compare it to your list and let me and Pat know if you have any additions or questions. We hope to have written responses from the people indicated on the right to give you, James and Greg at the Wed. May 11th meeting; however, they do not have to be discussed in detail at that time.

- 2) Discussion Items.

These are items that Dale & I feel are in both of our best interests to have clarification and mutual understanding of, as we move forward.

It seems to me, and I would hope you agree that the only way this meeting can be productive, as have previous meetings of this type, that both parties, keep an open mind and not get defensive.

If you have any questions, please give me a call.

Thanks,

cc: via fax
