Santa Fe NM 87505

Sirs,

I am writing in relation
to the hearing on modification to
the WIPP permit.

Any decision must take into
consideration the public overall.
Money & hysteria must not rule.

For a long time I've been
reading where New Mexico has
insisted on many changes in the
Permit. Many seem logical but
seem the work of "Chicken-Little"
mentality (anti-nuclear anything).

Please think of the Public & not
the "Chicken-Little" sue-sue bunch!

Sincerely,

Peter T. Barbatsuly
