COMMENTS

Don -

In response to your May 17 fax, attached are shipment summary reports for RFETS shipments since RF000007 (RF000008 through RF000013). This includes one shipment currently en route (RF000012) and one pending approval (RF000013). Also, the Repository Report identifies 5 drums associated with Richland (Hanford) Site which are listed as "PreSubmit Characterization". I have no further information from the WWIS on those 5 drums. Finally, I have not received any further draft or final Waste Stream Profile Forms.

Steve
