Steve

All of the display ads were posted yesterday. One slight glitch was in the Santa Fe New Mexican. They did not make the necessary change for the date of the end of the public comment period (from March 31 to April 2, 2001). The correct date was posted in all other papers.

The ad will be posted again prior to the close of the comment period with the correct date.

The facility mailout for the Class 2 DR/CT mod was completed yesterday.

Any questions please call at your convenience.
