THE NUTS WHO SENT ME THIS CARD!

JUST SAY NO TO DOE!

Support

I ~~oppose~~ oppose the DOE's plans to stop examining each waste container before it can be shipped to WIPP.

APPROVE

I ask NMED to ~~DENY~~ DENY the proposed Class 3 modification that guts waste characterization requirements for WIPP.

needless and extremely expensive

I support full State authority over WIPP to protect my health and the environment.

We can't afford to keep generating data of such limited value. This money could be spent on needed environmental restoration at DOE facilities.
