Mr. James Bearzi, Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505-6303

Subject: Shipment of Containers from Waste Stream LA-MIN03-NC.001

Dear Mr. Bearzi:

In accordance with the Stipulated Final Order, No. HWB 09-31 (CO) (LANL), prior to shipment of remediated containers from waste stream LA-MIN03-NC.001, respondents shall submit to NMED the following information for each container:

- A. A list of remediated containers being shipped;
- B. Evidence that each container has been remediated in accordance with approved LANL procedures; and
- C. Evidence that NCRs written for prohibited liquid have been dispositioned appropriately by CCP.

Enclosed is a list of containers from waste stream LA-MIN03-NC.001 that the Central Characterization Project (CCP) is prepared to ship. Also enclosed is a digital video disk (DVD) containing the required documents for 77 containers listed on page 2 of this letter. Each container listed has its Real-Time radiography (RTR) Batch Data Report (BDR) and prohibited item disposition (PID) form.

Included in the DVD is the NCR's associated with the parent containers for each. These PIDs are in a different format than previously submitted. When LANL began this campaign to remediate LA-MIN03-NC.001 containers they were packaged into new containers. Therefore, the PID shows the parent container and the daughter container. These daughter containers passed RTR and do not have a nonconformance report (NCR). The PID does identify that the container has been remediated for liquids.

If you have any questions, please contact Ms. Norma Castaneda at (575) 234-7118.

Sincerely,

  
Edward Ziemianski  
Acting Manager

Enclosure

Mr. James Bearzi
