Mr. Ricardo Maestas

New Mexico Environment Department

2905 Rodeo Park Drive, Building 1

Santa Fe, NM 87505

Re: Don't Expand WIPP

Dear Mr. Maestas:

I oppose the plans of the Department of Energy (DOE) to build a surface storage facility at the Waste Isolation Pilot Plant (WIPP).

Surface storage is dangerous to workers and the public and is not authorized by federal law.

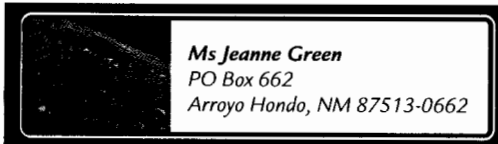

→ I ask the New Mexico Environment Department (NMED) to request that DOE withdraw their surface storage facility proposal.

→ In the alternative, I ask NMED to DENY the permit modification request for the surface storage facility at WIPP.

Please add my name to the Department's facility mailing list for WIPP.

Sincerely,

Jeanne Green

WIPP was a pilot project.
ie. experimental.

It didn't work. Close
it down + protect the
public. Above
ground storage at
WIPP is not an option.
Not safe.
