Subject GRC Closure and Order of/at LTU			

Discussion

B.S.: Contact GRC and explain 4 items:

- #1) Serious violations w/ lack of Land Treatment Program addressing the soil-core Plan & Soil-Liquid Monitoring Plan.
- #2) Latest soil-core data 1987-88 indicates contamination BTZ, lysimeter data (NOV 90) indicates contamination BTZ and SMW series indicate metals contamination in Ciniza sands aquifer below LTU.
- #3) NMED will call for facility Post Closure Care Permit w/ possible Order to conduct additional sampling, testing, analysis and reporting.
- #4) Suggest a meeting in Santa Fe, with attorneys, to discuss the situation and options.

B.S.: Rem these 4 items by Ed-Benito for confirmation then call facility.
